

**PSYCKES CONSENT FORM
CITIZEN ADVOCATES, Inc.**

The Psychiatric Services and Clinical Enhancement System (PSYCKES) is web-based application maintained by the New York State (NYS) Office of Mental Health (OMH). It contains health information from the NYS Medicaid database, health information from clinical records, and information from other NYS health databases. For an updated list and more information about the NYS health databases in PSYCKES, visit www.psyckes.org and see "About PSYCKES."

PSYCKES data includes identifying information (such as your name and date of birth), information about health services that have been paid for by Medicaid, information about your health care history (such as treatment for illnesses or injuries, test results, lists of medication you have taken), and information entered by you or your treatment provider into the PSYCKES application (such as a Safety Plan).

The health information in PSYCKES can help with your treatment. In this Consent Form, you can choose whether or not to give your provider electronic access to your health information that is in PSYCKES. You can give consent or deny consent, and this form may be filled out now or at a later date. **Your choice will not affect your ability to get medical care or health insurance coverage. Your choice to give or to deny consent will not be the basis for denial of health services.**

If you check the "**I GIVE CONSENT**" box below, you are saying "Yes, this provider's staff involved in my care may get access to all of my medical information that is in PSYCKES."

If you check the "**I DENY CONSENT**" box below, you are saying "No, this provider may not see or be given access to my medical information through PSYCKES." There are, however, times when your provider is allowed by law to access your medical information. This includes:

- **If a Medicaid Program has a quality concern about your healthcare, then federal and state laws permit your provider to access your medical information to address the quality concerns.**
- **Quality concerns help healthcare professionals determine if the right services are being delivery at the right time to the right people.**
- **There are also exceptions to the confidentiality laws that may permit your provider to obtain necessary information directly from another provider for treatment purposes under state and federal laws.**

Please carefully read the information on the back of this form before making your decision.

Your Consent Choices. You can fill out this form now or in the future. You have two choices:

- I GIVE CONSENT for this provider to access ALL** of my electronic health information that is in PSYCKES in connection with providing me any health care services.
- I DENY CONSENT for this provider to access** my electronic health information that is in PSYCKES; however, I understand that my provider may be able to obtain my information even without my consent for certain limited purposes if specifically authorized by state and federal laws and regulations.
